

MORIN BUILDING
8570 EXECUTIVE PARK AVENUE
FAIRFAX, VIRGINIA 22031

March 3, 2022

To: All Prospective Applicants
Issued by: Torry Huff, VCCO, CPPO, CPPB, Senior Procurement Specialist
Subject: Addendum #1, RFQ 22-001, Willard Maintenance Facility

The purpose of this Addendum is to answer questions received.

I. Answers to questions that were received.

Q1. On page 6, under B. Required Experience, 3 states- "Satisfactory experience in the General Contracting of new building construction within the last ten (10) years. Provide the current status of projects in progress, including project duration and anticipated completion of each project. Explanations shall be given for any project that finished or is currently behind schedule."

Can you please clarify if we need to provide two listings, one for new building construction we have completed within the last (10) years and one for current/prequalified projects?

A1. Complete Attachment F-2 to include all current prequalified or contracted projects as described under Part F of the Qualification Statement.

Q2. Do you know the number of GC's FFX Water plans on prequalifying? We were wondering since this is a larger project than the last one, if that means you plan on prequalifying less bidders.

A2. There is no limit to the number of firms that will be prequalified. Any firm whose application demonstrates the minimum experience as set, and addresses all requirements of the RFQ, will be successfully pre-qualified. The final list of pre-qualified firms will be made public prior to the issuance of an Invitation to Bid.

Q3. Does this project involve a fuel facility? I saw it on a bid board and it just offers request for qualifications.

A3. Yes, this project includes a fueling station.

No other changes have been made to the RFQ.
