Subject: Addendum #2, RFP 17-79, SharePoint – Intranet Architecture and Content Migration

The purpose of this addendum is answer questions submitted by the specified deadline.

The Response to Question 31 in Addendum 1 was cutoff in the conversion from MS Word to PDF. The full answer has been provided below.

QUESTIONS AND ANSWERS

31. Is Active Directory Sync is configured?

Response: Separately, FW is currently analyzing a sync from SAP into AD for certain employee attributes/fields that would propagate from SAP as the master/source repository into AD. This basic sync is envisioned as one-way with the synced fields locked down as read-only in AD and maintained/updated on the SAP side. The intent at this stage is to minimize the scope and complexity of the sync process (likely a scheduled job) while assuring data quality and process integrity (i.e., that the attributes that ought to be sourced and maintained in SAP are kept up to date in AD). FW intends to build and maintain this basic sync process as a precursor to the SP Solution project.

No other modifications were made to the RFP.
